EDUCATION

Sir M. Visvesvaraya Institute of Technology (Sir MVIT) — **Bengaluru, Karnataka**
Bachelor of Engineering in Computer Science & Engineering | CGPA: 8.13 — **Sep 2025 – Jul 2029**

Blue Bells Academy — **May 2023 – May 2025**
Senior Secondary (Class XII), Science Stream — **Completed**

Radiant International School — **Patna, Bihar**
Secondary School Examination (Class X) — **Completed 2023**

TECHNICAL SKILLS

Core Languages:	Python (Data Structures & Algorithms), C Programming, SQL
Frontend Engineering:	React.js, JavaScript (ES6+), Tailwind CSS, Vite, HTML5, CSS3, SAP Fiori Principles
Analytics & BI:	Tableau, Microsoft Power BI, Data Modeling, Chart.js, Microsoft Excel
Developer Tools:	Git, GitHub, VS Code, Vercel, Postman

LEADERSHIP & TECHNICAL EXPERIENCE

Technical Executive — **Oct 2026 – Present**
Entrepreneurship Cell (E-CELL SMVIT) — **Bengaluru, India**

- Architecting and maintaining frontend web platforms using **React.js** and **Tailwind CSS** to support campus-wide entrepreneurship initiatives and flagship pitch competitions including StarPitch.
- Developing responsive registration portals and participant dashboards with clean state management and mobile-first layouts.
- Collaborating with cross-functional technical teams to coordinate hackathons, speaker events, and campus startup showcases.

KEY PROJECTS

FireGuard AI — Real-Time Hazard Detection Pipeline — **ElectroHack 4.0 Hackathon**
Python, YOLO11, PyTorch, OpenCV, FastAPI, JavaScript — **2026**

- Engineered an end-to-end computer vision pipeline to detect fire and smoke hazards from streaming surveillance feeds.
- Curated, validated, and annotated a custom **190+ frame video dataset** for bounding box multi-class model training.
- Conducted GPU-accelerated transfer learning on **YOLO11**, balancing low-latency inference with minimal false positives.
- Constructed asynchronous **FastAPI endpoints** for live frame ingestion, returning predicted bounding boxes and severity flags.

AegisShield AI — Supply-Chain Disruption Decision Platform — **SAP Hackfest 2026**
React, JavaScript, SAP UI5 Web Components, SAP Fiori Design System — **2026**

- Architected the frontend user experience for an enterprise decision-support tool helping leaders evaluate operational shocks.
- Developed modular, reusable UI components aligned strictly with **SAP Fiori** guidelines and **SAP UI5 Web Components**.
- Engineered multi-variable scenario comparison views factoring supplier risks, operational dependencies, and compliance factors.
- Delivered working prototype and live presentation resulting in **selection for the SAP Hackfest Grand Finale**.

AI-Powered Resume Analyzer Platform — **INNOVISTA 2.0 Expo**
JavaScript, HTML5, CSS3, Text Tokenization, ATS Scoring Algorithms — **2026**

- Developed an automated candidate screening platform extracting role-based competencies and computing ATS match scores.
- Designed a modern glassmorphic recruiter dashboard supporting multi-resume review, ranking metrics, and visual feedback.
- Demonstrated platform live at Sir MVIT's INNOVISTA 2.0 Project Work Expo with active deployment.

Superstore Sales Analytics Dashboard — **HCL GUVI Certified**
Tableau, Data Modeling, Business Intelligence, Excel — **2026**

- Modeled retail transactional data to uncover regional profit leaks, return patterns, and discount-to-profit margin correlations.
- Constructed interactive executive KPI dashboards with drill-down parameters across regional territories and product categories.

CERTIFICATIONS & COMPETITIONS

- **Top 8 Bangalore Finalist (DeepTech & AI Track):** Shortlisted among Top 8 teams in Bangalore at eDC Blueprint 6.0 (IIT Delhi).
- **Python Programming Essentials 1 & 2:** Cisco Networking Academy credential in procedural Python and data handling.
- **Business Analysis Workshop:** HCL GUVI certification in enterprise data modeling and performance reporting.
- **Data Analytics Job Simulation:** Deloitte Australia (Forage) simulation in data cleaning, modeling, and Tableau visualization.
- **Career Essentials in Generative AI:** Certified by Microsoft & LinkedIn Learning covering LLM workflows and prompt design.
